## Aggregate Morbidity Report Form\*

### Basic Instructions

*Purpose:* Use this form to report on all clients medically seen in your shelter over the last 24 hours.

*Procedure:*

- **PART I:** Fill out the top portion of this form with disaster name, report date and timeframe (24hr period), city, state, and name of shelter.
- **PART II:**
  - Total Client-related Contacts = **mark EACH CONTACT** in the 24hr reporting period.
  - Total Number of Health-Related Client Visits = **mark EACH VISIT** in the 24hr reporting period for each time client health care was given (e.g., multiple blood sugar checks = mark a tick for each visit)
- **PART III:** Mark one tick for gender (male or female) and for age category, for each **Health-related Visit**
  - The total number for gender (male + female) and for combined age categories at the end of the 24hr reporting period should equal the **total number of health-related client visits (7b)**.
- **PART IV:** Mark one tick for each complaint for the *current* health visit.
  - For example, if a client has diabetes and receives a regular blood sugar check, only mark Blood sugar check. Do not mark diabetes unless the client is currently having symptoms consistent with an exacerbation of diabetes.
  - **IMPORTANT:** For medication refill, mark one tick for EACH medication supplied
- **Part V:** Mark client disposition for each health-related visit.
  - Tick **provided Red Cross care** for clients treated and released (back into shelter or community) as well as those referred, if care was given prior to referral.
- **Functional/Access Needs:** Mark each identified individual need based on the C-MIST model ONCE per 24 hour period.
- Print your name and provide contact information on the bottom of the form
- Submit by 4pm local time

**Thank you!**
