

CALCULATING YOUR NEXT MOVE? BECOME AN ACCOUNTANT WITH CDC

Accountants act as fiscal stewards of public funds, ensuring that the Centers for Disease Control and Prevention (CDC) accomplishes its public health mission through agency-wide fiscal accountability and oversight. Accountants maintain CDC’s fiscal credibility with Congress and American citizens.

As a member of our talented and diverse workforce, you have a direct impact on public health. Being an accountant is more than a job; it’s a rewarding career in which you make a difference.

In CDC’s Office of Financial Resources (OFR), we are passionate about what we do because we understand that each budget dollar is far more than a number. It is lives saved, illness and injury prevented, hope and healing restored.

As an Accountant, You Will...

GUIDE.

Accountants guide the agency in performing well-established accounting principles, concepts, standards, and practices, including those issued by the U.S. Government Accountability Office (GAO), the Office of Management and Budget (OMB), the Federal Accounting Standards Advisory Board, and the U.S. Department of the Treasury (Treasury).

ANALYZE.

Accountants analyze and reconcile a variety of accounts and transactions to ensure compliance with applicable requirements, and to identify and resolve variances in the financial system of record. Accountants ensure appropriate accounting treatments and methodologies.

REPORT.

Accountants manage accounting and financial operations of the general ledger closeout, reconciliations, financial reporting, internal control risk assessments, policies, and financial audit support. Accountants also perform quality control reviews and manage billing and collections for the agency.

READY TO JOIN US?

Search <https://go.usa.gov/xtTZ7> using keyword accountant (GS-0510). This role requires either (1) a degree in accounting or (2) a degree in a related field, such as business administration, finance, or public administration, with 24 semester hours in accounting, or (3) an equivalent combination of education and experience meeting specific criteria.
