[Data are based on death certificates]

- - - Data not available. Complete coverage of all states for the Hispanic origin variable began in 1997.

¹Between 1998 and 1999, the cause of death title for Chronic obstructive pulmonary diseases (COPD) in the *International Classification of Diseases, 9th Revision* (ICD-9) was renamed Chronic lower respiratory diseases (CLRD) in ICD-10.

²Starting with 1999 data, the rules for selecting CLRD and Pneumonia as the underlying cause of death changed, resulting in an increase in the number of deaths for CLRD and a decrease in the number of deaths for Pneumonia. Therefore, trend data for these two causes of death should be interpreted with caution. For more information, see in Appendix II, Table V.

³Starting with 2011 data, the rules for selecting Renal failure as the underlying cause of death were changed, affecting the number of deaths in the Nephritis, nephrotic syndrome and nephrosis and Diabetes categories. These changes directly affect deaths with mention of Renal failure and other associated conditions, such as Diabetes mellitus with renal complications. The result is a decrease in the number of deaths for Nephritis, nephrotic syndrome and nephrosis and an increase in the number of deaths for Diabetes mellitus. Therefore, trend data for these two causes of death should be interpreted with caution. For more information, see Technical Notes in "Deaths: Final Data for 2011," available from: https://www.cdc.gov/nchs/data/nvsr/nvsr63/nvsr63_03.pdf.

NOTES: For cause-of-death codes based on the ICD-9 in 1980 and ICD-10 in 2015, see Appendix II, Cause of death; Cause-of-death ranking; Table III; Table IV. Starting with 2003 data (shown in spreadsheet version), some states began to collect information on more than one race on the death certificate, according to 1997 Office of Management and Budget (OMB) standards. The multiple-race data for these states were bridged to the single-race categories of the 1977 OMB standards, for comparability with other states. The race groups white, black, Asian or Pacific Islander, and American Indian or Alaska Native include persons of Hispanic and non-Hispanic origin. Persons of Hispanic origin may be of any race. See Appendix II, Race; Hispanic origin.
