

Instructions for Completion of the COVID-19 Long-term Care Facility (LTCF) Resident Therapeutics Form ([CDC 57.158](#))

Data Field	Instructions for Form Completion
NHSN Facility ID #	The NHSN-assigned facility ID will be auto-generated by the system.
CMS Certification Number (CCN)-may be referred to as participation number	Auto-generated by the computer, if applicable, based on the CCN entered during NHSN registration or last updated, if previously edited. Please see NHSN CCN Guidance document for instructions on how to add a new CCN or edit an existing CCN.
Facility Name	Auto-generated by the system based on the facility name previously entered during NHSN registration.
Date for which counts are reported	Required. Select the date on the calendar in which the counts are being reported in the NHSN LTCF COVID-19 Module- <i>Therapeutics Pathway</i> .
Facility Type	<p>Auto generated based on the facility type selected during NHSN enrollment. Selections include:</p> <ul style="list-style-type: none"> • LTC-ASSIST – Assisted Living Residence • LTC-ICF/IID – Intermediate Care Facilities for Individuals with Intellectual Disabilities. • LTC-SKILLNURS – Skilled Nursing Facility⁺ <ul style="list-style-type: none"> ⁺Includes both skilled nursing facilities and nursing homes • LTC-PSYCH – Psychiatric Residential Treatment Facility • LTC - SVHALF – Assisted Living Facility for Sate Veteran’s Homes • LTC - SVHSNF – Skilled Nursing Facility for State Veteran’s Homes <p>Please see NHSN Guidance document for instructions on How to Correct Your Facility Type if the autogenerated information is incorrect.</p>
Date Created	Auto generated based on the first calendar date and time that a user manually enters and saves data or the date the facility first submits a CSV file for a specific pathway. Note: The date and time will automatically generate after the “Save” button is selected and cannot be modified.

Important:

Report total counts for the below questions only one calendar day during the reporting week and include only the number of residents who were newly administered a therapeutic since the previously reported counts. If the count is zero, a “0” must be entered as the response. A blank response is equivalent to missing data.

Data Field	Instructions for Form Completion
<p>Therapeutic</p> <p>For each therapeutic listed, enter the number of residents who received the therapeutic at this facility or elsewhere during the current reporting week only.</p> <p>Important: Do not report cumulative counts.</p>	<p><i>Therapeutic</i> is defined as a treatment, therapy, or drug. Monoclonal antibodies are examples of anti-SARS-CoV-2 antibody-based therapeutics used to help the immune system recognize and respond more effectively to the COVID-19 virus.</p> <p>Since the last date these counts were collected for reporting to NHSN, indicate the number of residents who received one or more of the listed therapeutics, based on:</p> <ul style="list-style-type: none"> • In-house stock that was stored at your facility (specifically, either administered by your LTCF or by an outside entity using stock provided by your LTCF). • Stock that was stored at another facility, such as an infusion center or hospital. <p>Important:</p> <ul style="list-style-type: none"> • The reported counts must include only the number of newly administered therapeutics since the last date in which therapeutic counts were reported to NHSN. • If there were no residents who received one or more of the listed therapeutics during the reporting week, a zero (“0”) is to be reported for each listed therapeutic. A blank field could be interpreted as missing data. • Counts include resident(s) who received the listed therapeutic during the reporting week regardless if the therapeutic was administered to the resident while in the LTCF or while in another facility. <p>Example: During this reporting week, a total of 7 residents received a therapeutic (specifically, were treated with monoclonal antibodies or antivirals).</p> <ul style="list-style-type: none"> • Resident A was transferred to the emergency department where he received an infusion with <i>Sotrovimab (GlaxoSmithKline)</i>, so he was included in the <i>Sotrovimab (GlaxoSmithKline)</i> count in the second column [1]. • Residents B and C were treated in their LTCF with <i>Regeneron’s Casirivimab plus Imdevimab (Regeneron)</i> by an infusion nurse who administered the infusions <u>from stock stored at the LTCF</u>, so they were included in the <i>Casirivimab plus Imdevimab (Regeneron)</i> count in the first column [2]. • Resident D was treated with <i>Bamlanivimab and etesevimab (Lilly)</i> by an infusion nurse who brought the <u>therapeutic from an outside pharmacy</u>, so the resident was included in the <i>Bamlanivimab and etesevimab</i> count in the second column [1]. • Resident E was treated with <i>Evusheld (AstraZeneca)</i> in the facility from stock stored at the facility, so the resident was included in the <i>Evusheld (AstraZeneca)</i> count in the first column [1]. • Residents F and G both received <i>Paxlovid (Pfizer)</i> while in the facility from stock stored within the facility. They were included in <i>Paxlovid (Pfizer)</i> count in the first column [2].

The below counts were reported to NHSN for the reporting week.

2 *Casirivimab plus Imdevimab (Regeneron)* stock stored at the facility

1 *Bamlanivimab and etesevimab (Lilly)* stock stored at **another** facility

1 *Sotrovimab (GlaxoSmithKline)* stock stored at **another** facility

1 *Evusheld (AstraZeneca)* stock stored at the facility

2 *Paxlovid (Pfizer)* stock stored at the facility
