

Instructions for Completion of the Person-Level COVID-19 Vaccination Form for the Healthcare Personnel Safety (HPS) Component

The optional Person-Level Vaccination Form for Healthcare Personnel (HCP) was developed to assist facilities with managing and tracking person-level vaccination data directly in NHSN. This allows the application to automatically calculate and submit the weekly summary totals to the main NHSN Weekly HCP COVID-19 Vaccination Module. Users update the person-level data with any changes to an individual’s vaccination status over time, click **‘View Reporting Summary and Submit’** to review the totals, and submit their weekly data to the Weekly HCP COVID-19 Vaccination Module. We recommend that all facilities that report COVID-19 Vaccination data in the HPS component use the Person-Level COVID-19 Vaccination Form to ensure accurate reporting of summary data when submitting data to the Weekly COVID-19 Vaccination Module. Learn more here: [Healthcare Personnel Safety Component \(HPS\) Person-Level COVID-19 Vaccination Form How-To Guide June 2024 508 \(cdc.gov\)](#)

Please note if you plan to submit person-level data via .CSV file upload, please refer to the latest variable description and file layout for person-level vaccination forms document for additional guidance on formatting: [Variable description and file layout - LTC HCP June Release \(cdc.gov\)](#)

Data Fields	Instructions for Completion
Unique HCP Identifier	<p>Required. Enter a unique identifier for the healthcare worker, assigned by your facility. This can be any combination of letters and numbers. This identifier is designated by your facility, not NHSN. You can directly enter the identifier, or you can click the Find button and select a healthcare worker from the list of healthcare workers who have previously had data submitted in NHSN via other Person-Level Forms (e.g., Point of Care Testing (POC) Tool).</p> <p>Ensure that you are using the same identifier used for entering the healthcare worker into other Person-level modules or pathways within the HPS Component, as applicable.</p> <p>Avoid:</p> <ul style="list-style-type: none"> Using Date of Birth or room number as an identifier, as these can be shared by more than one individual and may result in duplicate IDs.
