The following note applies to several pages on this dashboard.
Enrollment over Lifetime of Program consists of all unique individuals ever enrolled in the Program, including those individuals who have been subsequently disenrolled or died. The Program does not track cause of death for deceased members; thus, cause of death may or may not be WTC-related.
Currently enrolled members do not include deceased or disenrolled members.

WTC Health Program Enrollment

1. Change in Total Enrollment Over the Lifetime of the Program

Enrollment over Lifetime of Program consists of all unique individuals ever enrolled in the Program, including those individuals who have been subsequently disenrolled or died. Deceased members include all causes of death; cause of death may or may not be WTC-related.

Currently enrolled members (as seen on subsequent pages) do not include deceased or disenrolled members.

13. Applications Received in Current Calendar Year

Note on Date Range for Application Data: In late 2021, the Program moved to using the online CARE system to process enrollment applications. For consistency in reporting, application data starts with 2022, the first full year of data from the new system.

Application Data Thru: September 30, 2024

Applications in Process - Suspended

14. Prior Year Applications Currently in Suspend Status

**Based on date application was received*

● Responder ● Survivor

15. Current Year Applications in Suspend Status

**Based on date application was received*

● Responder ● Survivor

Note on Date Range for Application Data: In late 2021, the Program moved to using the online CARE system to process enrollment applications. For consistency in reporting, application data starts with 2022, the first full year of data from the new system.

Note on Suspended Applications: Incomplete applications are generally "suspended" but still considered "in process" until sufficient documentation is received to determine enrollment eligibility. An application may move in and out of suspend status throughout the application process. The number of prior year applications currently in suspend status is generally lower than the number of current year applications in suspend status due to sufficient information being received to move the application to active processing status.

Ineligible Activity

Note on Date Range for Application Data: In late 2021, the Program moved to using the online CARE system to process enrollment applications. For consistency in reporting, application data starts with 2022, the first full year of data from the new system.

Note on Suspended Applications: Typically, incomplete applications are suspended prior to the application being sent to NIOSH for decision-making. This is why the total number of suspended applications is greater than the number of applications with a NIOSH decision of "Suspend".
